Spring 2012

To the Parents / Guardians of participants in Equinox Adventure programs,

With your permission, your son and/or daughter will be participating in one of our adventure programs. The most common programs we offer include Climbing Wall & Zipline (at Takhini Hot Springs), GP Teaming, Rock Climbing and Canoeing.

Since 2000 we have been providing adventure programs for groups like yours. All of our programs include highly skilled (& friendly) staff, quality equipment, innovative structures and dramatic locations. We are dedicated to the belief that participating in adventure-based activities helps to build character, trust, communication, problem solving and leadership which in turn creates stronger communities.

We assume that participants have no previous experience and all specialized equipment will be provided. Participants should arrive dressed for outdoor activities ~ wind / rain gear, sturdy footwear, sweater, long sleeves and pants. Other considerations include food, drinks, sun protection and medication.

If you have any questions please contact us through our website www.equinoxukon.com or by phone at 456-7846.

Other programs we offer include summer adventure camp, group bookings and teambuilding programs.

Sincerely,

Christopher Gishler
