**Rock Climbing, Rappelling, Canoe, Kayak,
 Camping Skills, GPS, Map & Compass**

We have been providing youth with top-notch instruction in adventure based programs since 2004. Our goal is to expose campers to a variety of activities in a safe and structured environment and to encourage them to try new things and expand their skill base. ALP'ers receive instruction in various activities which are designed to allow individuals to learn at their own rate while being part of a team environment.

The Adventure Leadership Program (ALP) provides training to youth interested in pursuing outdoor adventure activities while developing and enhancing their individual leadership skills. All adventure activities focus on skill development while working on increasing self-awareness and confidence, learning new leadership skills, setting individual goals, working as a team, and developing problem solving and communication skills.

Lunch Break	Kusawa Lake	Hike up Kusawa Ridge	Riverside Campsite,	Takhini R. to
GPTeaming	Flatwater paddling, campsite setup.		Moving water paddling, fishing	Mendenhall Landing

Adventure Camp Activities:

Rock Climbing: ALP'ers learn basic climbing techniques, proper equipment use, knot tying, and belay skills. We alternate between two climbing locations so that campers have the opportunity to try different climbing sites. On this day trip campers also participate in hiking and forest exploration. During the rock climbing lessons, ALP'ers set personal goals, learn rope management skills. In addition to climbing technique, these lessons focus on teamwork, communication, goal setting and rappelling.

Canoeing: Following guidelines set by the Canadian Recreational Canoeing Association, campers learn and improve their tandem flat water paddling skills by participating in various canoeing skills sessions and activities.

Takhini River Trip (session 2, 4 & 6): This camp includes a 4 day trip that takes ALP'ers along the upper Takhini River, starting from Kusawa Lake. ALP'ers will build catamaran style rafts and enjoy a trip that is a bit more challenging than our regular river trips. ALP'ers will learn moving water canoeing skills and safety practises throughout their 4 day river trip. The program focuses on teamwork, communication skills and problem solving. ALP'ers will use maps, compass and GPS to navigate down the river while locating appropriate campsites and rest stops. Each evening youth will work as a group to set up camp and prepare the meal. They will participate in various activities on the canoe trip, such as atlatl throwing, instruction on using a GPS device, camp crafts and evening campfire programs. Along the way ALP'ers will learn map & compass skills as well as identify birds and animals. We will also be doing lots of fishing on this trip so be sure to bring your fly rod.

GP Teaming: Small teams use GPS, map, compass and their brains to find caches of teambuilding activities and tests of fortitude. Participants explore a variety of group skills including: problem solving, communication, trust and decision making.

Closing Exercise:

ALP'ers will spend Friday afternoon reflecting on the skills they gained, the goals they accomplished and challenges they overcame. The group takes part in a few debriefing activities and says farewell to the friends they shared the week with.

Each week is slightly different to ensure variety for campers returning for multiple weeks. We guarantee that every week will be a fun filled experience with the opportunity for campers to meet new friends and learn new skills.
